Rainy Day

It is a rainy day
I see gray gray sky
When the sky goes boom
I see the lightning
When rain touches the ground
I will run in the field
I would be the one
Who will have all the fun
It is a rainy day
I like gray gray sky

My Recent Vacation

I love India, my country my nation
Just because it is very rich in emotions.

So, when I completed my recent vacation
I made so many memories
So many new relations.

I found, people are full of affection
Though they have different cultures,
religions and tradition.

People united look like colorful rainbows in the sky
I still remember my vacation was so wonderful
It was hard to tell them bye.

A Rainy Day

It was the month of May
But it was a rainy day.
I wore my raincoat,
and made some paper boat.

I placed my boat on the running water,
It sank, but it doesn't matter.
I like to jump over muddy puddles,
Thinking that they are hurdles.

Then came the mighty sun,
The rainy day was so much fun.

My First Stage Performance

One day my class teacher announced that our school will have an Annual Day on 28 November.

I was so excited to hear my teacher say that I will perform on Punjabi songs.

We practiced everyday for two months. When the day finally arrived, I dressed up in the Punjabi costume.

We all went on the stage and danced together.

The crowd cheered and clapped for us.

I had great fun.

I hope I can take part in such events every year.

My Best Friend

My best friend is Safiya. I first met her when I was in UKG. She lives in my next building. We talk to each other from our windows.

I go to her house to play and she too comes to my house. We at times revise for our test together. We enjoy doing art work together along with her brother and sister. Every morning when we meet, we run and hug each other. She is a few months younger to me. She get cranky when she is hungry else she is the sweetest.

I wish we are friends always.

Rainy Day

Oh, it's a rainy day. it's my favorite day.

Whenever I get a rainy day my mind will fill with joy and start rejoicing.

On rainy days I can see the Rainbow

On rainy days I like to roam around my courtyard and farming area with my umbrella. I like to jump in muddy puddles and splash.

After the rain, I like to shake small trees to see the water falling from them.

During the rain, I and my sister prepare small paper boats and put them in the water.

I missed my rainy days

My Recent Vacation

In the summer holidays, my parents told me that we would be traveling to India. I was very excited and happy to go for a vacation and travel in a plane after a very long time. We packed our bags and took a flight to Bangalore. When we reached Bangalore, it was raining and it was beautiful. I met my cousins and had a lot of fun playing with them. I went to a farm and saw them growing vegetables and fruits like bananas and papaya. We also went to Mysore Zoo and saw many wild animals like lion, tiger, and cheetah. I also saw a peacock there. We went to another city and went driving in the mountains. On the way I saw big windmills and many monkeys on the road. I had a lot of fun in my vacation and am waiting for my next holiday in India.

Rainy day

There are three different kinds of seasons in my country my home town (Mumbai - India). They are summer season, rainy season and winter season. Out of all of these, my favorite one is the rainy season. When I went to India in my last summer vacation in June, it was the first time I saw a rainy day! The climate was very cool and it rained heavily one evening. Me and my cousins played a soccer match in the playground. We returned home fully wet and covered with mud. My grandmother made delicious snacks such as pakodas and sandwiches for all of us. It was delicious and we all enjoyed it. My father got some rain coats, gum boots and pretty umbrellas for me and my brother from the market. I loved the rain wear costumes as we both were looking super cute. I also got a chance to see a beautiful rainbow too up in the sky after it stopped raining. It was my first and the best rainy day ever!

My First Stage Performance

Dance, is a form of art. I am very passionate about dance. Group dance was my first stage performance. I was 6 years old when I performed for the first time. I was very excited but a little nervous before it. But as soon as I entered the stage and the music started playing, I suddenly felt really good. I started dancing freely and energetically as per the steps my dance teacher taught during the dance practices. People were very happy and were cheering our group performance. They really enjoyed it. Seeing this I felt very happy and confident. Thus my first performance boosted self-confidence in me.

The first book I read

I am Vihaan Varun and I have so many books.

The first book I read was 'The very hungry caterpillar'. It is made by Eric Carle.

It is a beautiful book about a tiny caterpillar with so many pictures in it.

My mother read it for me before I learned to read.

One day a tiny caterpillar got hungry and started to eat a lot of food like fruits, unhealthy food and finally a leaf on different days in a week.

Then he sleeps in a house called Cocoon.

After some days the Cocoon got broken and a beautiful and colorful butterfly came out of it.

It is a very nice book and I love to see the page of colorful butterfly very much.

My Vacation

Vacation is the most exciting word in my dictionary. My parents planned a surprise that we were travelling to the world's most extraordinary and beautiful place on earth. We packed our pieces of baggage and went to the airport. Our flight took off around 8.30 AM. I was super excited to know this wonderful place.

Finally, it was our time to land. When I saw through the window, I was delighted to see such lovely and wonderful islands. It was a treat to my eyes. My mother told me that it was the Maldives. I loved the beautiful colour of the sea.

We were taken to our resort by a speedboat. I was too scared of the sea the huge waves and holding my father so tightly. We were welcomed with flower garlands. The place had so many lovely beaches. We went to our room and took rest. To my surprise that night, I saw many baby sharks, electric eels, turtles, stingrays. The moon and the stars were magnificent.

The next day I saw the sunrise, which looked like a fireball. The beach was so beautiful and breezy. I enjoyed playing and collected so many seashells. Finally, I said bye to Maldives and took back home a lot of memories wishing to come again soon.

My Dream

My dream is to be an IPS officer. I want to be a police officer because, I like to help the society. I got this dream from the police officers who all are helping the people to be safe and secured. The officer who inspired me is Mr. Sylendra Babu, IPS officer of Tamilnadu. He is from my native district Kanyakumari, Tamilnadu, India. I want to meet my dream officer very soon and get motivated.

My grandfather wished to become a police officer but he couldn't and so, I promised him that I will be a sincere IPS Officer. I always keep myself active by walking, jogging and doing exercise. My family always motivates me to achieve my dream.

First Book I Read

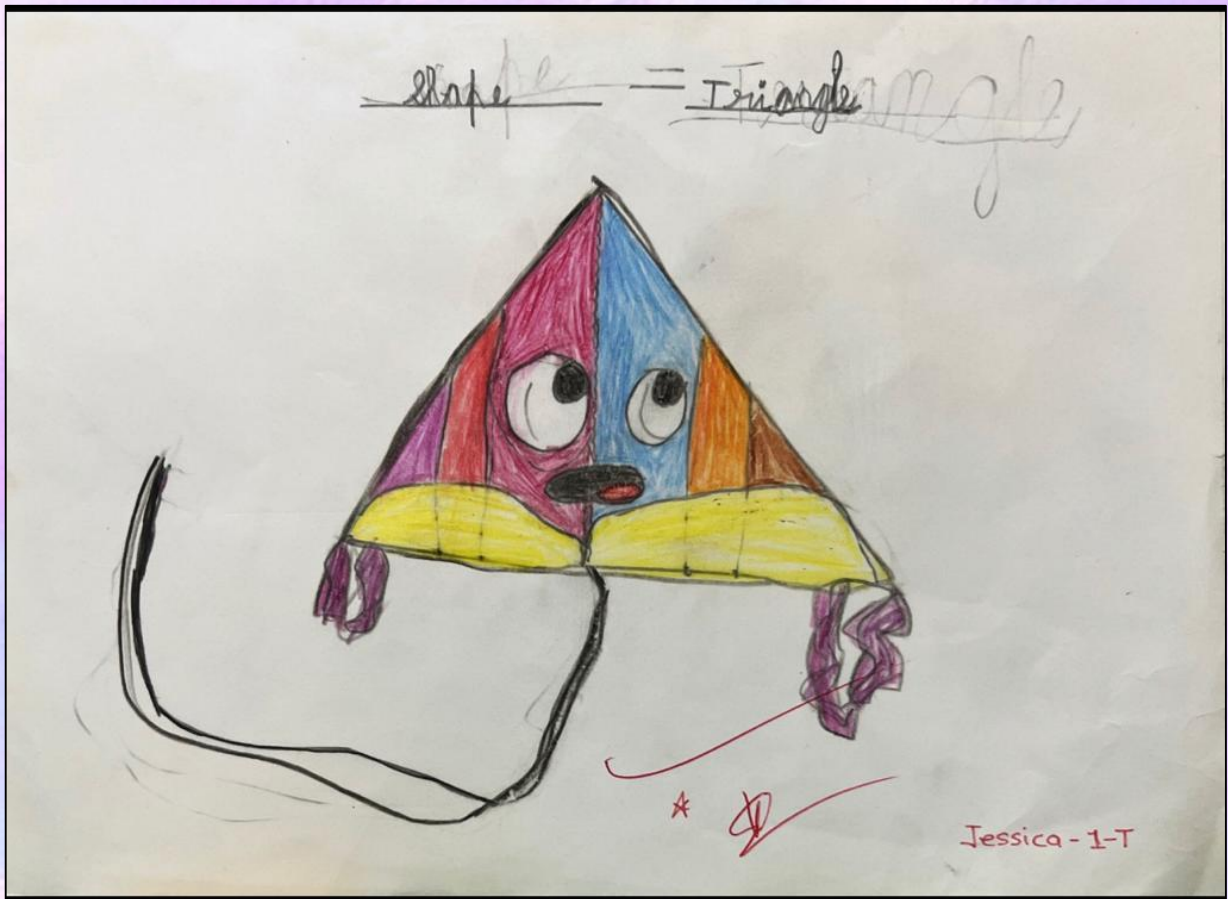

Hi, my dear readers, I'm going to share my experience about the first book I read. My first book was "ROOM ON THE BROOM" written by Julia Donaldson. My mother gifted me this book for my 4th birthday. The story was about the Witch, Frog, Cat, Dog, Owl and a bird. These animal friends helped the Witch to escape from a dragon and make a new magic broom. The book has an amazing illustration which makes the story interesting. This book taught me about the importance of achieving your DREAM WORK by TEAM WORK. It improved my reading skill. So, I suggest my friends to read as many books as possible. This book is available in amazon.
